

MALU PLATINUM CITY

NINTHMILE
CONSTRUCTIONS

Luxury Living
with a heart of
“Green”

Inspired by luxury and quality, Platinum City offers spaces of silence, laughter and celebration. Recreation and Landscape come together seamlessly with an amphitheatre, sports courts, parks and seating areas catering to all age groups. This oasis provides a perfect place for leisure, sport and relaxation in the heart of Gulbarga giving Platinum City and its residents a Green Paradise.

LIFESTYLE

WORLD CLASS AMENITIES

- Swimming Pool
- Skating Rink
- Kids Play Area

- Badminton Court
- Basketball Court
- Amphitheatre
- Senior Seating Area
- Gazebo
- Water Fountains
- Themed Parks

PROJECT DETAILS

Road: Paved road with quality of Subgrade, Subbase, base.

Pedestrian Pathway: Paved pathways little higher from road level with green strip acting as buffer between vehicles and pedestrians

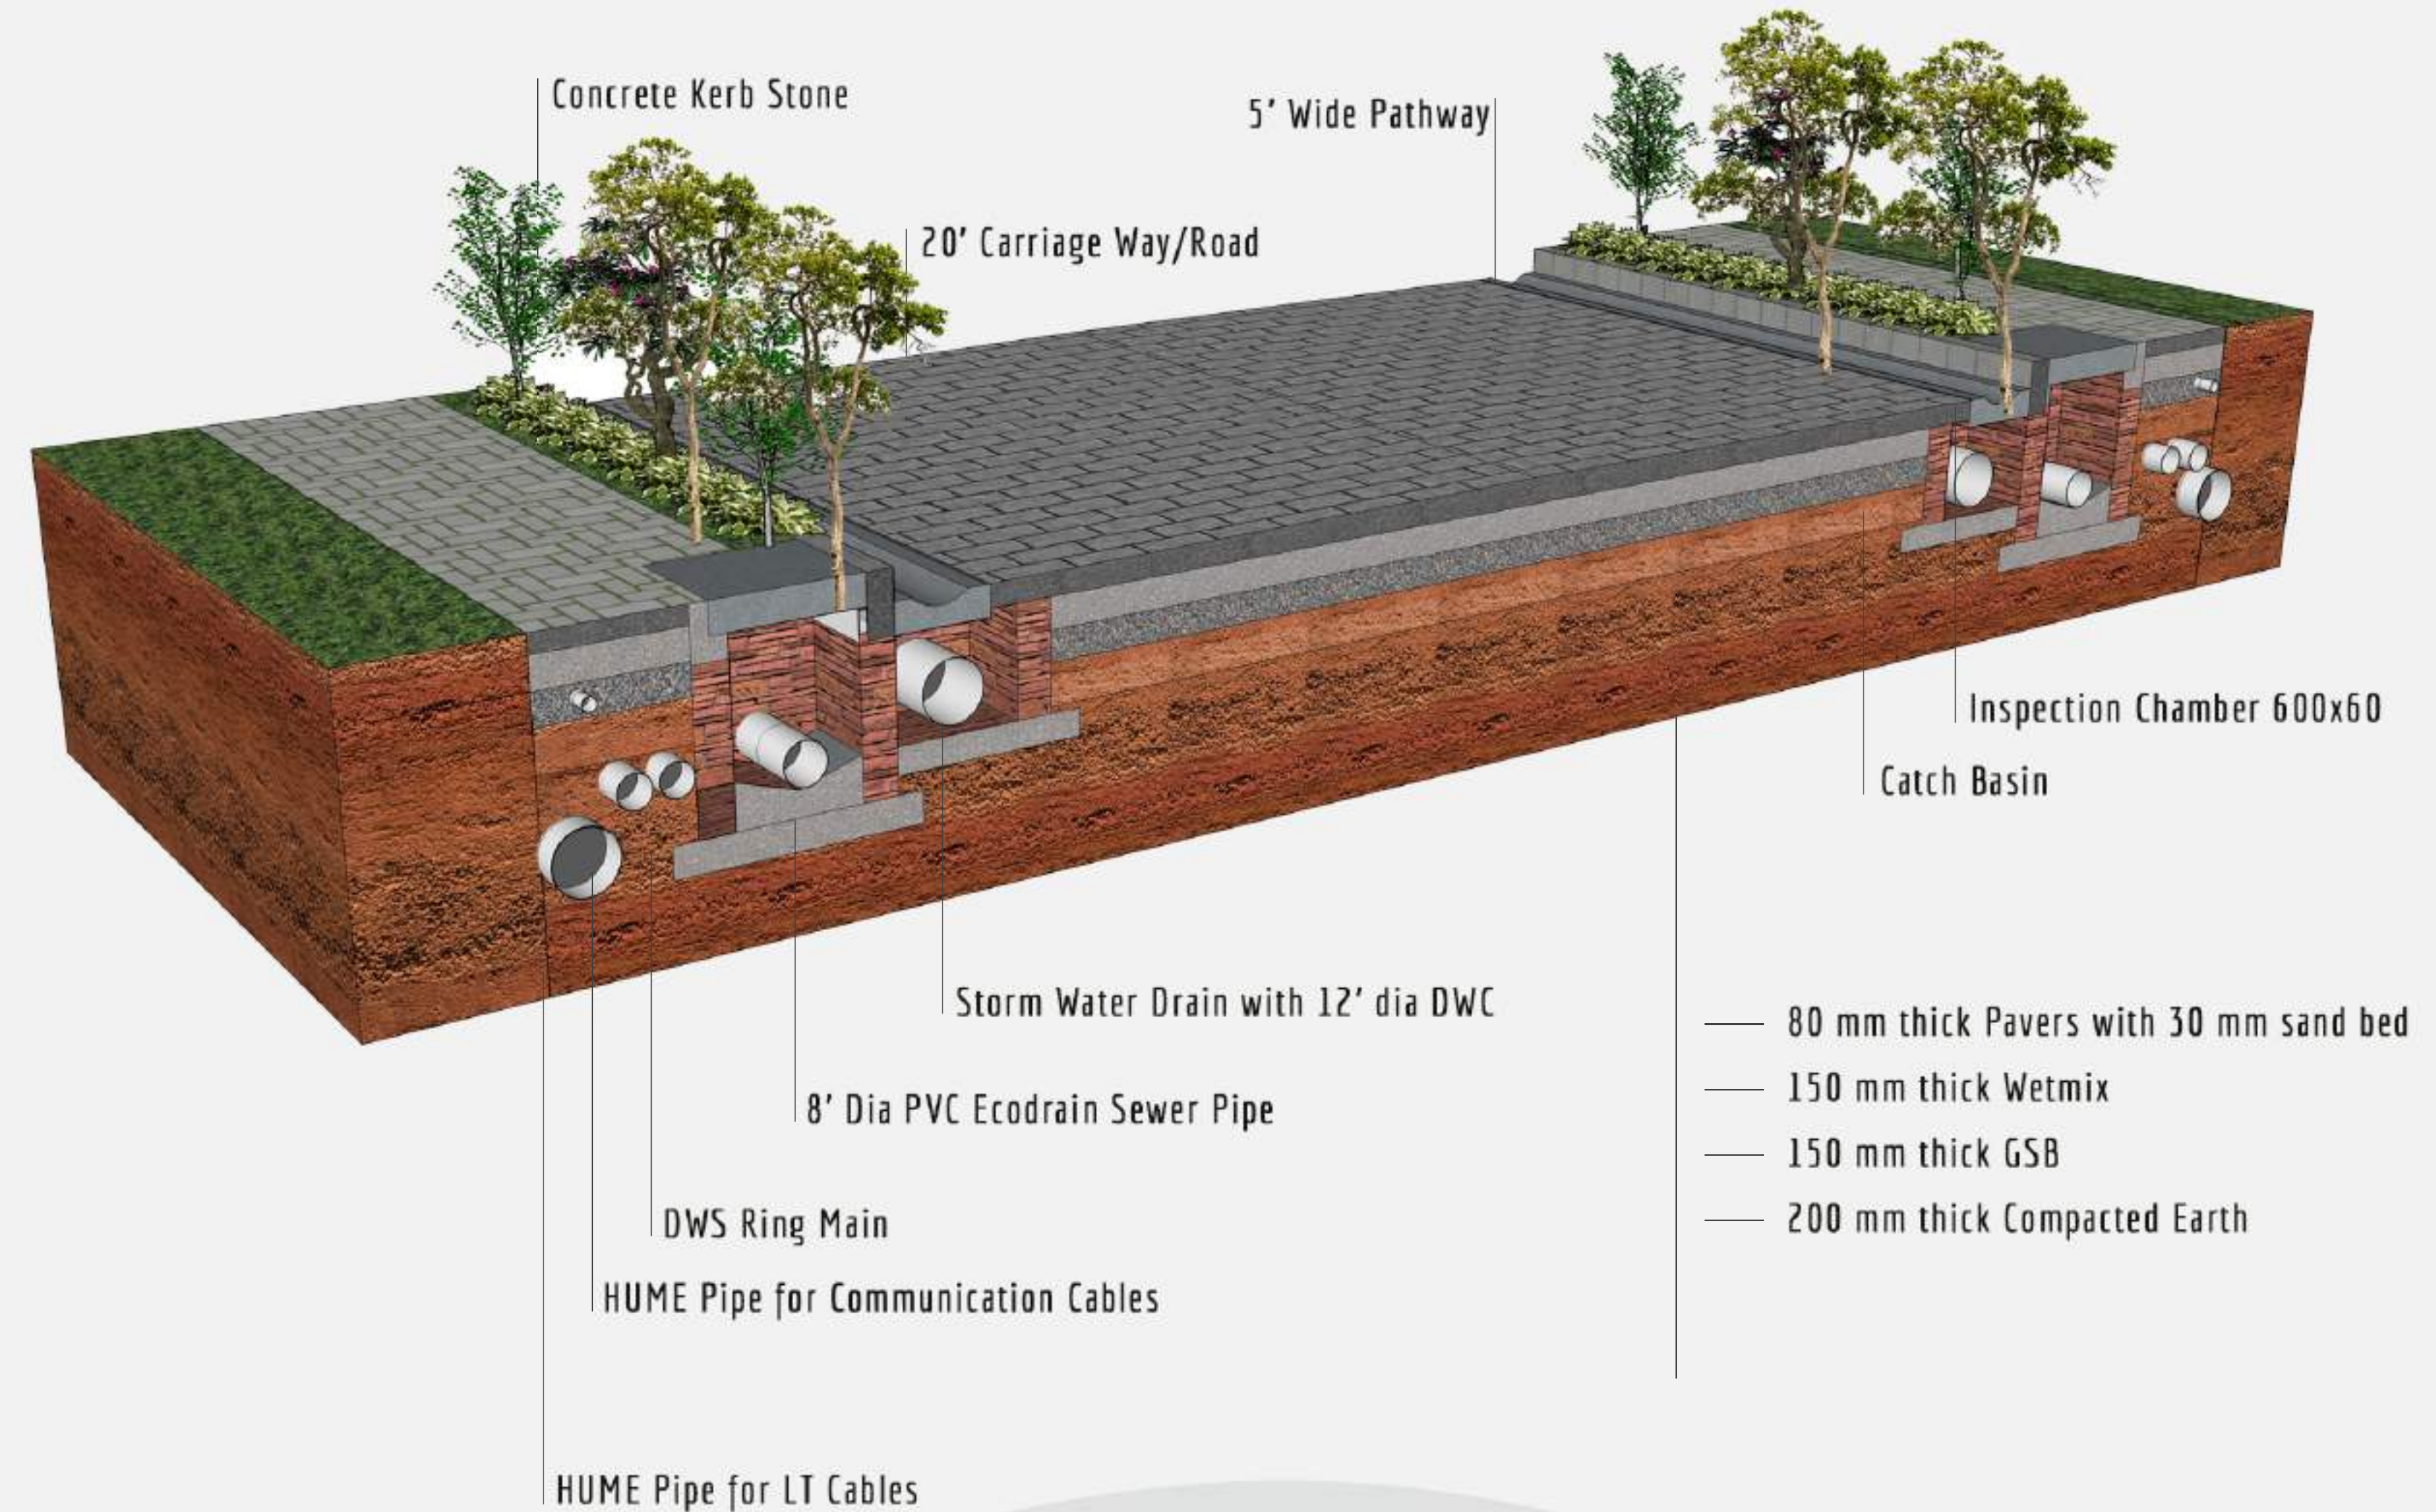

Sanitary: Collected in inspection chambers and transported through Underground Foam core pipes collecting from each plot and routes to STP

Storm water: Collected in catch-basins and transported through Underground DWC pipes which is routed in rain water harvesting pits to recharge existing borewell pits.

Water supply: Transported through pipes water collected in an Overhead tank with ample capacity. The gravity flow system will provide water to every site in community

Electrical System: Underground cabling for site and street lights which is tallest structure visible on road as like trees. Feeder pillars distribute power to plots and connected through UG cabling connected from aesthetically planned transformers

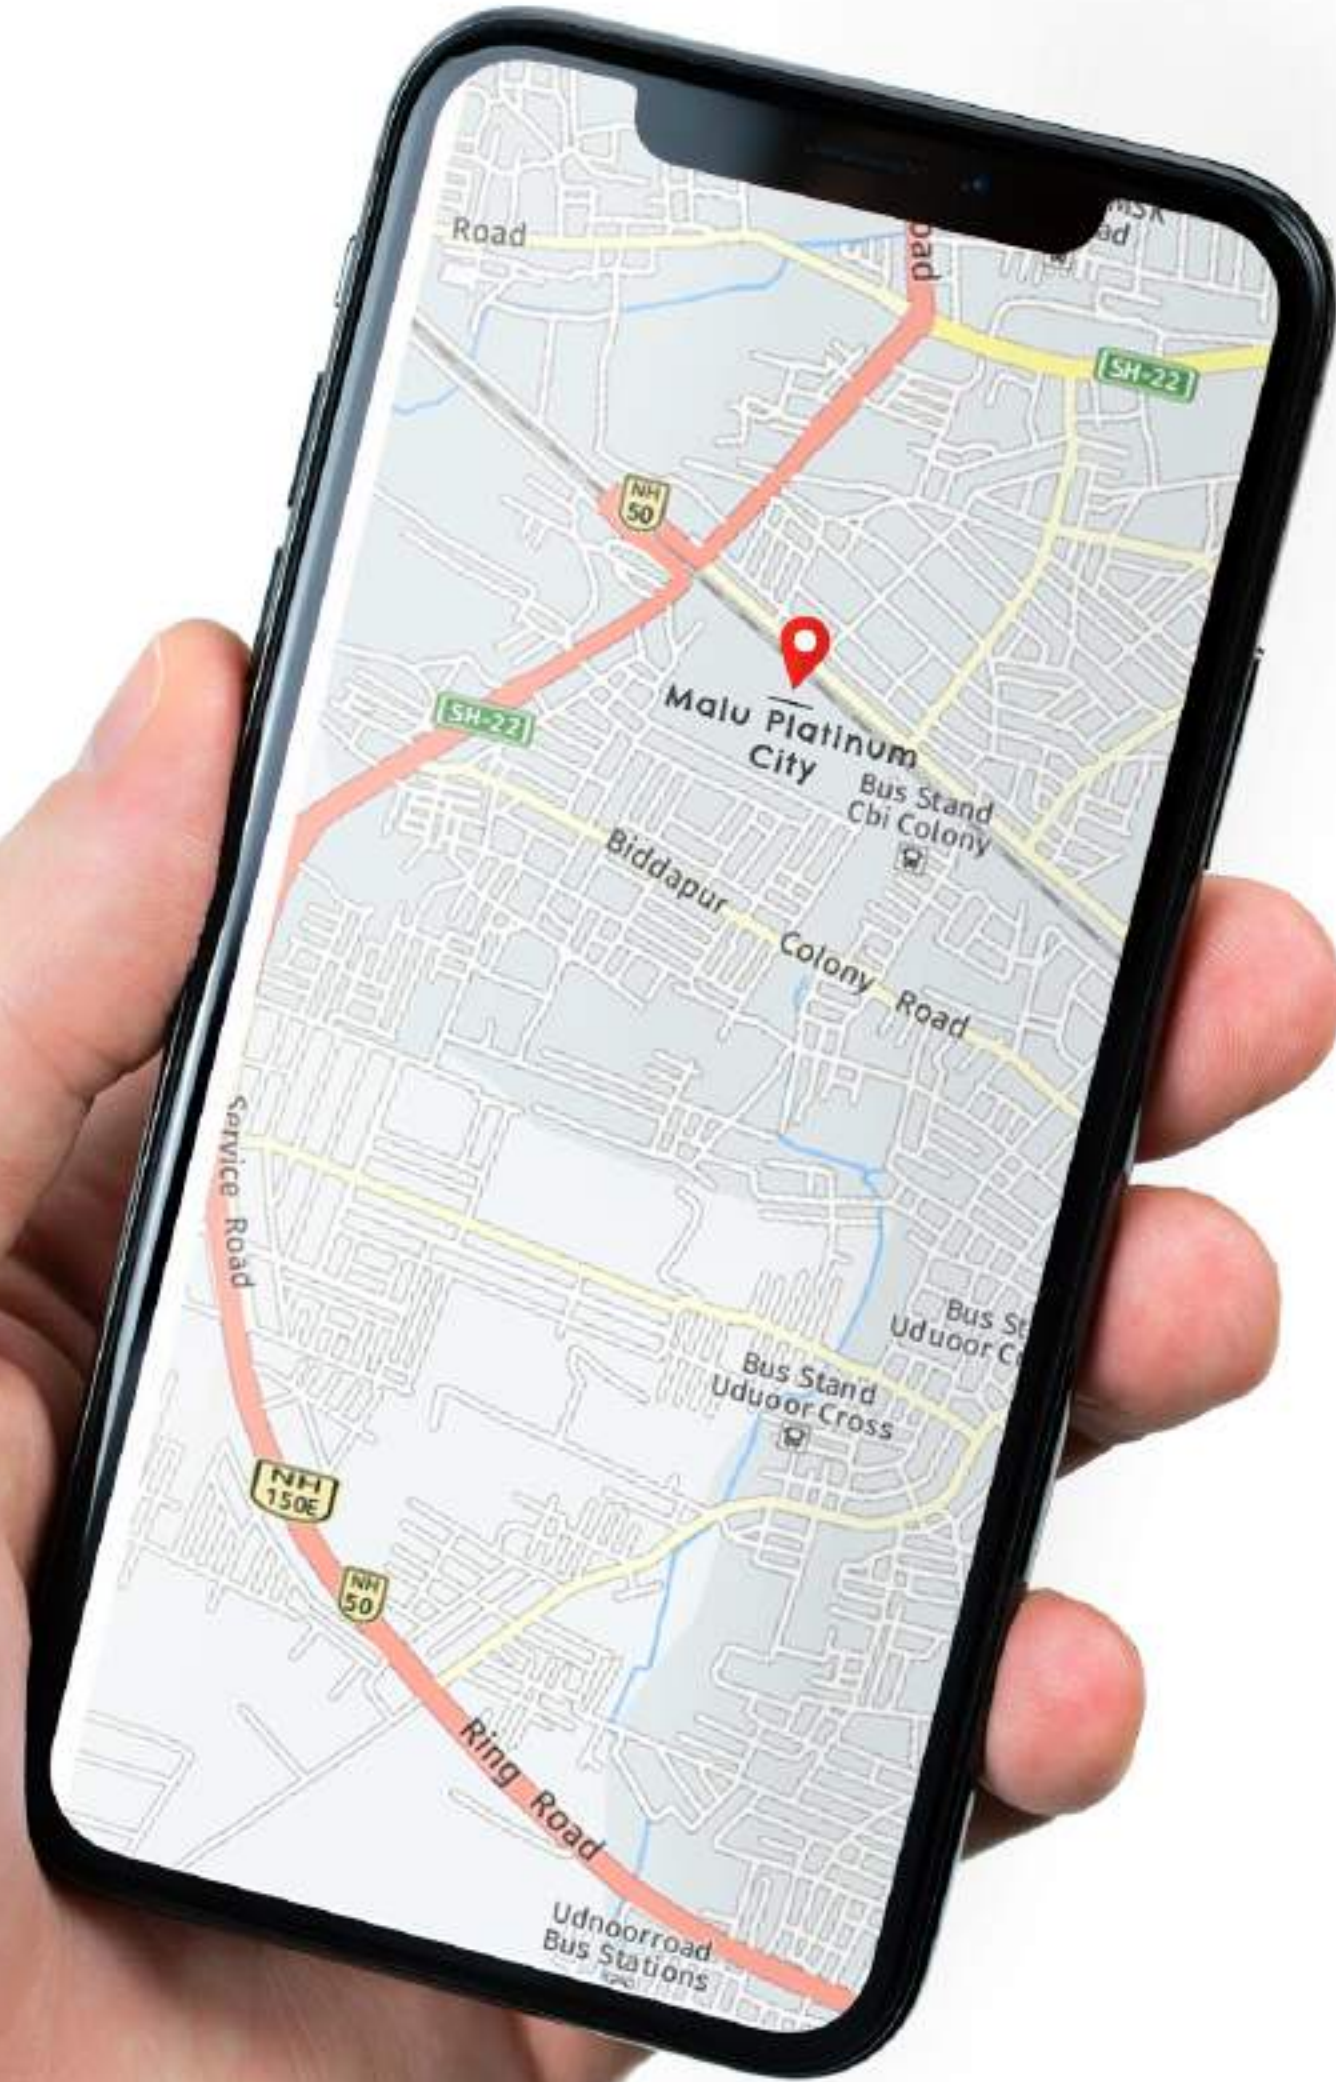

Communication system: Underground pipe to carry Fibre optic cable to every home without digging of roads.
